- **Base currency hedged share classes:**
These hedged share classes aim to reduce the effect of exchange rate fluctuations between the base currency of the sub-fund and the currency in which the hedged share class is denominated.
The aim of this type of hedging is for the performance of the hedged share class to be reasonably comparable (after adjusting for the difference in interest rates between the two currencies) to the performance of a share class denominated in the sub-fund's base currency. This type of hedging is identified with the suffix H added in the denomination of the share class.
- **Asset hedged share classes:**
These hedged share classes aim to reduce the effect of exchange rate fluctuations between the currencies in which a sub-fund's investments are held and the currency of the hedged share class. This type of hedging is identified with the suffix AH added in the denomination of the share class.

The shares issued are described in detail in the section "Changes in the number of shares outstanding for the period" of the various sub-funds.

e) Valuation of options and futures

The valuation of options and futures admitted to an official listing or any other organised market is based on the last known price or, if the option is traded on more than one market, on the basis of the last known price in the market on which the contract was concluded by the SICAV.

Options and futures that are not traded on a stock exchange or any other organised market will be valued at their probable market value estimated conservatively and in good faith. The market value of options is included in the statement of net assets under the heading "options (long position) / (short position) at market value".

The realised gains / (losses) and change in unrealised appreciation / depreciation on options are disclosed in the statement of changes in net assets respectively under the headings "Net realised gain / (loss) on options" and "Change in net unrealised appreciation / depreciation on options".

The unrealised appreciation / (depreciation) on future contracts is disclosed in the statement of net assets under "Net unrealised appreciation / (depreciation) on futures". Changes in the market value of open future contracts are recorded as unrealised appreciation / (depreciation) in the statement of changes in net assets under "Change in net unrealised appreciation / depreciation) on futures".

Realised gains or losses, representing the difference between the value of the contract at the time it was opened and the value at the time it was closed, are reported at the closing or expiration of futures contracts in the statement of changes in net assets under "Net realised gain / (loss) on futures".

For the details of outstanding options or financial futures, if any, please refer to the section "Notes to the financial statements - Schedule of derivative instruments".

Other notes to the financial statements

Note 2 - Principal accounting policies (continued)

f) Valuation of forward foreign exchange contracts

The forward foreign exchange contracts are valued on the basis of forward exchange rates prevailing at the closing date and applicable to the remaining period until the expiration date. The unrealised appreciation / (depreciation) on forward foreign exchange contracts is disclosed in the statement of net assets under "Net unrealised appreciation / (depreciation) on forward foreign exchange contracts".

Realised gains / (losses) and change in unrealised appreciation / depreciation resulting there from are included in the statement of changes in net assets respectively under "Net realised gain / (loss) on forward foreign exchanges contracts" and "Change in net unrealised appreciation / depreciation on forward foreign exchange contracts".

For the details of outstanding forward foreign exchange contracts, if any, please refer to the section "Notes to the financial statements - Schedule of derivative instruments".

g) Valuation of Non-Deliverable Forwards contracts ("NDF")

Non-Deliverable Forwards are short-term forward contracts on thinly traded or non-convertible foreign currencies. Those contracts are valued on the basis of forward exchange rates prevailing at the closing date and applicable to the remaining period until the expiration date. The unrealised profits or losses resulting from NDF are included in the statement of net assets under the heading "Net unrealised appreciation / (depreciation) on forward foreign exchange contracts".

The NDF are normally quoted and settled in USD. Realised gains / (losses) and change in unrealised appreciation / depreciation resulting there from are included in the statement of changes in net assets respectively under "Net realised gain / (loss) on forward foreign exchanges contracts" and "Change in net unrealised appreciation / depreciation on forward foreign exchange contracts".

For the details of outstanding Non-Deliverable Forwards, if any, please refer to the section "Notes to the financial statements - Schedule of derivative instruments".

Note 5 - Operating and Administrative Expenses

Other notes to the financial statements

Note 5 - Operating and Administrative Expenses (continued)

a) the expenditures incurred directly by the SICAV, including, inter alia, the Depository Bank's fees and charges, the fees and expenses of the approved independent auditors, the cost of share class hedging, including that invoiced by the Management Company, the fees paid to the Directors and the reasonable expenses and outlays incurred by or for the Directors;

b) a "service fee" paid to the Management Company and including the remaining sum of the Operating and Administrative Expenses after deduction of the expenses detailed in section (a) above, that is, inter alia, the fees and expenses of the Domiciliary Agent, the Administrative Agent, the Transfer Agent and Registrar Holding and the Principal Paying Agent, the costs related to registration and maintenance of the registration in all the jurisdictions (such as the fees charged by the supervisory authorities concerned, the translation expenses and the remuneration of the Representatives abroad and the local paying agents), the stock exchange registration and renewal expenses, the cost of publishing the share prices, the postal and telecommunication charges, preparation cost, printing, translating and distributing the prospectuses, key investor information documents, notices to shareholders, financial reports or of any other document intended for the shareholders, the legal fees and expenses, the charges and expenses related to the taking out of any subscription/licence or any other use of fee-paying information or data, the expenses incurred by the use of a registered trademark by the SICAV, the expenses and fees payable to the Management Company and/or its delegates and/or to any other agent appointed by the SICAV itself and/or to the independent experts.

The Operating and Administrative Expenses are expressed as an annual percentage of the average net asset value of each share class and are payable monthly.

At the end of a given period, if the actual charges and expenses were to be higher than the percentage of Operating and Administrative Expenses set for a share class, then the Management Company would pay for the difference itself. Conversely, if the actual charges and expenses were to turn out to be lower than the percentage of Operating and Administrative Expenses set for a share class, then the Management Company would retain the difference.

The Management Company shall be entitled to instruct the SICAV to proceed to settle all or part of the expenses as listed above directly from its assets.

In such a case, the amount of the Operating and Administrative Expenses would be reduced accordingly.

Note 6 - Subscription tax

The SICAV is governed by the Luxembourg tax laws.

By virtue of the legislation and regulations currently in force, the SICAV is subject in Luxembourg to an annual tax of 0.05% of the net asset value of the SICAV; this rate is reduced to 0.01% for the classes reserved for institutional investors. This tax is payable quarterly on the basis of the net asset value of the SICAV calculated at the end of the quarter to which the tax relates.

The Belgian government enacted a law to tax once a year the net asset value of foreign investment funds registered in Belgium. This annual tax is calculated on the net amounts defined as invested in Belgium by Belgian financial intermediaries. In the absence of a sufficient declaration relating to these figures, the tax authority will be entitled to calculate the tax on the entirety of the assets of these sub-funds. The Belgian law of June 17, 2013 comprising fiscal and financial provisions and provisions relating to sustainable development set the rate of the annual tax for Undertakings for Collective Investment at 0.0925% with effect from January 1, 2014.

As a precautionary measure, the SICAV filed a claim with the Belgian tax authority and the Brussels Court of First Instance for the tax to be refunded. At this stage, it is not possible to prejudge the outcome of the dispute or any reimbursement in favour of the SICAV. In a similar case, the Belgian State appealed to the Court of Cassation against the Court of Appeal's rulings in favour of the plaintiff.

The management company was informed that the Court of Cassation ruled against the plaintiff on March 25, 2022. The Court of Cassation (French-speaking chamber) considers that the Brussels Court of Appeal wrongly qualified the Belgian subscription tax as a wealth tax covered by the double taxation convention between Belgium and Luxembourg (which convention attributes the right to tax Luxembourg SICAVs only by Luxembourg and not by Belgium, which justified the claim for reimbursement of the Belgian subscription tax).

The case is referred back to the Court of Appeal of Liège which will be bound by the assessment taken by the Court of Cassation.

Another decision of the Court of Cassation (Dutch-speaking chamber) of April 21, 2022 does not dispute that the Belgian subscription tax is a wealth tax, but considers that the double taxation convention between Belgium and Luxembourg (unlike the one signed with the Netherlands) does not cover in its scope a wealth tax levied in Belgium.

The prospect of a refund is therefore limited and will in any case not be possible in the short term.

Note 8 - Swing Pricing

For some of the sub-funds of the SICAV, provision has been made for the following measure:

On the valuation days on which the difference between the amount of subscriptions and the amount of redemptions in a sub-fund (that is, the net transactions) exceeds a threshold previously set by the Board of Directors (partial Swing Pricing), the Board reserves the right:

- to determine the net asset value by adding to the assets (for net subscriptions) or deducting from the assets (for net redemptions) a certain percentage of fees and costs corresponding to market practices in buying or selling securities for Candriam Sustainable Equity Climate Action, Candriam Sustainable Equity Emerging Markets, Candriam Sustainable Equity EMU, Candriam Sustainable Equity Europe, Candriam Sustainable Equity Europe Small & Mid Caps, Candriam Sustainable Equity Japan, Candriam Sustainable Equity World, Candriam Sustainable Equity Circular Economy, Candriam Sustainable Equity Children, Candriam Sustainable Equity Future Mobility, Candriam Sustainable Equity US and Candriam Sustainable Equity Quant Europe.
- to value the securities portfolio of the sub-fund on the basis of buying or selling prices or by setting spreads at a level representative of the market in question (in the case, respectively, of net inflow or net outflow) for Candriam Sustainable Bond Emerging Markets, Candriam Sustainable Bond Euro, Candriam Sustainable Bond Euro Corporate, Candriam Sustainable Bond Euro Short Term, Candriam Sustainable Bond Impact and Candriam Sustainable Bond Global, Candriam Sustainable Bond Global Convertible;
- to value the net asset value of the sub-fund or the part of the portfolio composed of high yield securities by adding to the assets (for net subscriptions) or deducting from the assets (for net redemptions) a bid-ask spread for Candriam Sustainable Bond Global High Yield.

During the period, Swing Pricing was applied to the Net Asset Values of the following sub-funds : Candriam Sustainable Bond Emerging Markets, Candriam Sustainable Bond Euro, Candriam Sustainable Bond Euro Corporate, Candriam Sustainable Bond Euro Short Term, Candriam Sustainable Bond Global, Candriam Sustainable Bond Global Convertible, Candriam Sustainable Bond Global High Yield, Candriam Sustainable Bond Impact, Candriam Sustainable Equity Children, Candriam Sustainable Equity Circular Economy, Candriam Sustainable Equity Climate Action, Candriam Sustainable Equity Emerging Markets, Candriam Sustainable Equity Emerging Markets Ex-China, Candriam Sustainable Equity EMU, Candriam Sustainable Equity Europe, Candriam Sustainable Equity Europe Small & Mid Caps, Candriam Sustainable Equity Future Mobility, Candriam Sustainable Equity Japan, Candriam Sustainable Equity Quant Europe, Candriam Sustainable Equity US, Candriam Sustainable Equity Water, Candriam Sustainable Equity World.

For equity method:

- Net broker commissions paid by the sub-fund
- Fiscal charges (e.g. stamp duty and sales tax)

For high yield method:

- Bid-ask spread

For fixed income method:

- Swing Pricing Policy
- linked to Bid/Ask spread
